SUMMARY

Computer Science student with basic knowledge of HTML, CSS, JavaScript, and C/C++. I build simple and responsive web projects like weather apps, calculators, and small tools. I also have an interest in UI design and creating clean layouts. Currently learning React and improving my skills step by step through practical projects.

EDUCATION

JIMS ENGINEERING MANAGEMENT TECHNICAL CAMPUS
B.Tech - Computer Science and Engineering

PURSUING
Greater Noida, Uttar Pradesh

JOSE MARTI SARVODAYA VIDYALAYA
XII - CBSE

2021 - 2023
Rk Puram, Delhi

GOVERNMENT BOYS SENIOR SECONDARY SCHOOL
X - CBSE

2016 - 2021
Vasant Kunj, Delhi

TECHNICAL SKILLS

LANGUAGES - C/C++, JavaScript, HTML, CSS

FRAMEWORK & LIBRARIES - ReactJS(Learning)

DATABASE - MySQL(Basic)

TOOL & TECHNOLOGIES - Git, GitHub, VS Code

PROJECTS

TEMPORA - Created a weather app that fetches real-time data from an API and displays forecasts with a clean, responsive UI. Focused on API integration, error handling, and accessibility.

CALCULATOR - A simple and clean calculator with basic arithmetic operations. Focused on responsive layout and smooth button interactions using JavaScript.

TICKTOCK - Built a functional stopwatch with start, stop, and reset features. Emphasized accurate time tracking and minimal, easy-to-use interface.

ACHIEVEMENTS

- Completed projects including Weather App, Stopwatch website, Landing page website, and calculator
- Participated in multiple college events and activities, gaining exposure, teamwork experience, and confidence in presenting ideas.
- Continuously learning and building through online courses, documentation, and personal exploration in web development
